Record Count

There is no denying that the number of persons who **died** in **COVID** is pretty large. However, there are still a lot of person who's **recovered** from it or **fighting** from it. But it doesn't mean that you are **immune** to it

Getting affected by **COVID** or simply **COVID** does not choose any specific person, whether you are a **Male**, **Female**, different gender identity or **20 years old**, **30 years old**, **10 years old**, or living from here, and there or everywhere, you are still vulnerable to **COVID**.

**KEEP SAFE
EVERYONE**
